

NEW ENGLAND ROCKY

WORDS TO THE MOVIE

"SCIENCE FICTION DOUBLE FEATURE"

Michael Rennie was ill
 The day the earth stood still
 But he told us where we stand
 And Flash Gordon was there
 In silver underwear
 Claude Rains was the invisible man
 Then something went wrong
 For Fay Wray and King Kong
 They got caught in a celluloid jam
 Then at a deadly pace
 It came from outer space
 And this is how the message ran:

I knew Leo G. Carroll
 Was over a barrel
 When tarantula took to the hills
 And I really got hot
 When I saw Jeanette Scott
 Fight a Triffid that spits poison
 and kills
 Dana Andrews said prunes
 Gave him the runes
 And passing them used lots of skills
 And when worlds collide
 Said George Pal to his bride
 I'm gonna give you some terrible
 thrills

LETS GET SOMETHING STRAIGHT

As I said last week, substitutes are often needed by the cast, especially the female roles. The person I said to contact was Jim Fulton. Call me a jerk, but I just assumed that everyone that came to the theatre knew who Jim Fulton was. Well blow me down, I guess I was wrong!

So now I will give you one address per purpose. First, to contact Jim on any matters concerning the cast itself, write 20 Sleepy Hollow Pentway, Gales Ferry, CT 06335. He said to tell you his phone number is 464-0164.

Anything else you want to write about and have us hear it should now be sent to NEW ENGLAND ROCKY, 18 Wychwood Place, Johnston, RI 02919. I'm keeping it to one address now because it doesn't seem to matter anyway - I havn't gotton a letter yet at either address!

I've decided to give people an incentive to write by offering a free gift to all those letters and postcards postmarked before January 31, 1983. The gift will be a personalized index card with all our autographs on it! And the big prize goes to the first person to write to us - you get your name in this paper! All you must indicate is that putting your name in the paper is OK by you. Now get off your tails and go for it!
