

HELP! FOR MR. SIZEMORE T. BONES

You recently read just a few weeks ago about the ever popular Sizemore T. Bones of the RHPS cast, who so proficiently plays the role of the skeleton in the coffin during the Time Warp. Sizemore's effectiveness in mimicing the skeleton is greatly enhanced by the fact that he is, indeed, a skeleton.

Well, we have been trying to cover it up and take care of the matter ourselves, but the ghastly truth is out - Sizemore's feet are missing. We wouldn't ask for your help if we didn't have to, but, alas, we've given up. We've done everything possible from our side of it. Going through the cinema's garbage bins was no pleasure. Neither was searching through the burnt stuff trying to salvage some remaining vestige of Sizemore's feet. But we'd do anything for him.

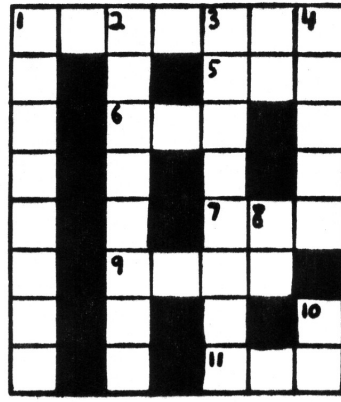

Please, everyone out there. Check the bottom of your shoes. It gets wet and sticky in here. One of the feet might be stuck to you. Check everywhere you've walked. This is very important. And report back anything you find. Even if it's not the whole foot. Maybe just a toe laying around somewhere. It could have broke up even more than our worst fears, but we'll just have to deal with that. Consider all possibilities. We'll be waiting, with our hearts in our hands.
