ROCKY CHRONICLES
(a continuing story)
by Andy Lamond

WHATEVER HAPPENED TO ...
Mr. Sizemore T. Bones ?

After the dance is over, Brad and Janet attempt to back out of the strange party only to encounter Frank (in full costume) arriving. He invites everyone upstairs to witness his achievement. Upstairs, after reviewing Brad and Janet, plus a boring speech, Frank astonishes everyone by bringing life to Rocky.

Well, this oft-asked question does deserve an answer sooner or later. And that answer is that Sizemore simply doesn't fit into our plans right now. His popularity dropping to apathetically low levels, his bag-of-bones body falling to pieces worse and worse each week, we have simply chosen to shelf Sizemore for a while, if not for good.

At first, Rocky's unprogrammed brain can only function from his (or rather, Eddie's) subconscious thoughts and only rejects Frank. He is finally calmed down and is given a few extravagant "birthday" presents.

All the missing pieces to his body have miraculously been found and he once again retains his full boneship, but why push your luck? If we keep using Sizemore week after week, eventually he would lose a bone that we couldn't recover.

Immediately after receiving these gifts, Frank is shocked and Rocky, like a child, is frightened by the warning signal of the deep freeze door as it begins to swing down and open.

Sizemore is now laying comfortably on top of my bureau. You shouldn't miss him because he's with us every week anyway. Remember, Sizemore is dead and thus his spirit is free to leave his bony confines and traverse wherever he wants to.

During the giving of gifts to Rocky, Eddie (unknown to anyone else), revived from his coma. From his slightly altered state of mind, Eddie observes his confinement and thinks "What the fuck?!"

Sizemore has been replaced by the more imposing, yet less complete, Mr. JR Skull. Mr. Skull, although lacking a bone body such as that possessed by Mr. Bones, does have a head 3, perhaps even 4, times that of Mr. Bones in size. Already, many audience members have expressed approval of the new "big-head" image behind the coffin door.

He promptly mounts his motorcycle, kicks over the icing cylinders, opens the door, and crashes through a wall of ice with all of his fury. He reclaims Columbia and dances and sings of his plite. It isn't until Eddie's actions begin to take an effect on Rocky that Frank decides to pick on Eddie and finish him off (much to Columbia's dismay). Eddie only has half his brain so he can't fight back.

The switch from Mr. Bones to Mr. Skull was indeed a change. This change was made for progress. We hope you like Mr. Skull. He's here now. *****

After this dirty deed, Frank consoles Rocky in his new bedroom. Then he consoles Janet. Then he consoles Brad.

Congratulations to the World
Champion BOSTON CELTICS!

Meanwhile, Riff torments Rocky and he gets loose. After Janet finds out that Brad smokes (pot), she finds Rocky and gets a piece of the rock.

Then Frank beats and whips Riff as a punishment. Riff then (while searching for rocky) discovers Dr. Scott.

(to be continued)

Uh, Andy, hurry up and give me more Rocky Chronicles. I've run out of them and a lot of people are following along eagerly.
