

I recall several years ago when people went to RHPs for laughs and good times and today there are still plenty of laughs. Who would Ever Expect this movie to be the biggest cult movie in motion picture History. The RHPs is still going strong in cities from Coast to Coast such as San Fransisco, Los Angeles, New York city, Boston and Providence.

The reason this Movie is a nation wide cult is because of crowd participation. It is the only movie where the people are part of the show. With out the ~~crowd~~ people in the Audience doing there thing it ~~would cut in the show~~ would cut directly in the Heart of the RHPs.

The only Difference between Prou. and some of the other cities is Prou tolerates more bullshite that is not RHPs Related. It seem there is always a Hundfull of Assholes who out of there way to bother some poor transilvanian trying to get into the RHPs. For instance There are some Jerk-offs
