Many of you may be wondering why you are now being searched as you in, and certainly most of you deserve an explanation. The reason and people to thank for the search are those people, comprising about 2% of the total audience, who can't handle the responsibility of an audience participation movie.

We all know about the tradition of the RHPS. We know that all of us who come to the movie are a little ... different. But there are sometimes a few people who go too far. These people can not handle the responsibility that comes with the freedoms they are givin. So, now, because of these few, everyone must be searched coming in and limits have had to be set as to what and how much of certain items can be brought in.

So don't forget to thank the guy who has to damage the screen by throwing eggs at it, or the girl who squirts people in the audience with amonia-filled spray bottles. Let's not forget the coward who throws objects at cast members who can't see him, including female cast members. It takes a real big man to do that.

In many theatres where RHPS is shown, management doesn't allow any audience participation. Here, we still are givin freedom.

The show has been gone for 6 months in this area. Now, we've finally got it back. Let's not allow 10 people out of 200 to ruin it for the rest of us. Just use common sense when at the show. Don't anyone or anything. And if you see someone doing that, let someone in the cast or from security know about it. We need your Participation in more ways than one to keep ROCKY HORROR in this area!
