

THEY CAME FROM WHERE?

As was done in the now classic PROVIDENCE ROCKY Volume 3 # 6, a new study has been done to locate the members of our cast here at the Cumberland Twin Cinemas. The basis of who got on the map was whoever had done the show twice or more.

As you can see, we have a geographically very diversified cast. We do our best to encourage all types of people from all types of places to join. Seven of our current crop have done the show in Groton regularly. Many others originally came from now-extinct casts from other times and other places. And many are just starting out now.

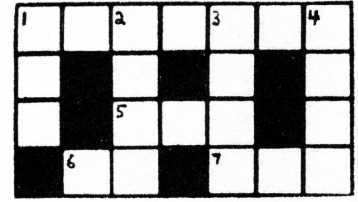

We are proud to be diversified in our effort. We believe it allows for the best talent available. So, outsiders, if you think you can make a contribution, come on in!
