THE ROCKY HORROR PICTURE SHOW

RHODE ISLAND ROCKY

HAPPY CHRISTMAS

Yuck! There it is. I've said it. I'm one of those types who isn't swept away by the Yule Tide this time of year. And I'll bet many of you aren't either.

Let's figure out ways to influence Xmas to reflect more of Rocky Horror in it, to at least make it more bearable. One idea I thought of was to hang up Fishnet Stockings in front of the chimney instead of the traditional red ones.

If any of you out there come up with any good ideas of your own please let me know. We must not forget the spirit of Rocky Horror during this screwed-up time of year!

TIM CURRY IN "CLUE"

Your car brakes down on a rainy night. There was a castle back down the ro so you go there and ask the butler if you can use the telephone. From the castle foyer you can hear loud music in the background. There are several guests there already. They are being monitored by the sleezy maid in another room. Someone serves wine but pours half of it all over the table. If you're not at Dr. Frank N. Furter's castle, there's only one other place you could be. You must be on the set of Clue, the movie starring Tim Curry (our Frank N. Furter) as Wadsworth the butler.

Tim Curry had the biggest part in Clue. Unfortunately, he also played the least interesting character. As Wadsworth, he orchestrates the action in the movie from beginning to end, while he and the other guests run around finding corpses.

But how was the movie? Clue was funny, boring, confusing and action-packed at the same time. The castle guests were extremely amusing characters. The body of the movie consisted of people getting killed, lights going on and off, and even more people arriving at the castle while the plot crawled along. It got to the point where there was too much action to follow. This is where it gets boring. At the end, Wadsworth reviews the events of the evening, but at high speed, which was equally impossible to follow.

Clue was a mixture of good and bad elements, but you should see it anyway. You'll find parts of it very funny. If you have a quick mind and a good memory, you may even be able to follow the story. If nothing else, it's a good chance to see Tim Curry with his clothes on.

I give this movie a B-. - Sheilarae
