

TO ALL THINGS ... AN END.

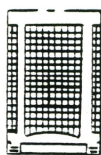

This weekend is the last weekend of the Rocky Horror Picture Show at the CTC. The 122 week running here is the longest one cast has continued to do the show night after night every week at the same theatre in RI. Such an outstanding accomplishment is a reflection on the cast, the audience, the theatre management, and the theatre security people. A failure in any of those areas would have prevented what we all did here.

Let me first say that you should all check the papers or call 333-1410 to see if Rocky reappears here. There is a chance that the show could come back in as close as 2 weeks, as long as 10 months, or simply never. No one knows. All that's sure is that if it does come back, we'll be back. We hope you'd be back too. Keep an eye posted.

Barring such a comeback, this is IT. The Farewell Weekend of Rocky. The end of something is seemingly a sad event. But it's preferable not to look at it as such. You have to realize what's happened here. The CTC got Rocky in April in 1985. The movie was dying in RI. And now a cinema away from any big cities took it for the first time. How could you expect it to last more than 2 months? But, thanks to the audience, it has lasted 2 1/3 years! The only reason you could feel sad is that you thought it would last forever. But then the question is - could you?

Nothing lasts forever, at least on Earth. And even counting the things we DO appreciate, nothing is

appreciated more than when it's gone.
And now the RHPS will be gone. To
all things ... an end.

Do not dwell on the sadness of the departing of the show. Be happy for the goodness that we have had here. In our 122 weeks, we've all been through a lot. We've had some big nights. I won't attempt a review. Suffice to say that most of the time we've had a lot of fun. Occasionally we had a few problems, as are inevitable with so many people for so long a time. But we've learned from both our good and bad times, all of which has made us better. I can not speak for the other 3 areas, but the one thing that has made this cast what it is is that they have always done 2 things: (1) Have fun and (2) Look forward. They've learned that ultimately it's positive energy and not negative energy that lasts. Because of this, they have overcome anything.

I'd like to list all the cast members who've done the show. I have a list of 111 names, but not the room to print them. If we ever do come back, you'll see them. 122 weeks. 111 cast members. How's that for meeting people? And that's not counting the audience!

If you still feel bad, and I suppose we all will for varying lengths of time, remember that that is the temporary price you must pay for having a good time. Maybe you just didn't think about it until now. But the worse you feel, the better the time you must have had here, the higher the value.

Isn't it worth it.
