

## Cast Romps Through 4-Show Weekend

Last weekend began a period of warm-weather Rocky that will prove to be exciting in the months ahead. The 2 shows at Rhode Island College last Thursday night went extremely well. We had a good crowd at 9:00 & a surprizingly BIGGER crowd at midnight. The crowd was also very well behaved, which is unusual for a college crowd. The members of the cast showed how good they are by pulling together quickly without any practice and just stepped right up there and performed as if they'd done the show there on a regular basis.

Friday was a typically normal Friday here, but Saturday proved to be a blockbuster night attendance-wise. The momentum will continue in the months ahead. We are awaiting word from the Bristol 4th of July Parade Committee on returning to do that again this year. Week # 100 is within sight! We are doing everything reasonable we can think of to make this show more exciting to the audience. The overall show has never been better in Rocky's 10 years in Rhode Island.

There have been questions asked of people about what would make them come back more & more. We get a few joke answers, a few unrealistic answers, & a few good answers. The next time you are asked, it will be face to face. WE WANT TO KNOW!

## The Final Question

Is there anything else you would like to say while you are at it?  
 Use the back.

The show is the best time in a movie theatre outside of SEX! with Tracy

The preshow for Bill was stupid, idiotic, dumbfounded, and not Bill  
 - Pissed off friends

Editor's note - The preshow you refer to playing the songs of  
 deceased singers had nothing to do with the late Bill Blair.  
 The show had been scheduled weeks before the accident.

Mike Frongillo is hot.
