

VOL. 4 NO. 99 August 12-13, 1989 FREE MEADOWBROOK CINEMA

Next Week is Centennial Weekend

What more be said about it? 100th week! Special Preshow Saturday! Be here for the biggie. Check out next week's Newspaper advertisement.

Limbo Results

There's only one contest Mike Cherry has never won - until last week. Last year Mike finished 2nd in the Limbo contest to "some dancer girl," as he bitterly described her in a recent interview. This year, with an uncanny bend-back-and-hop technique, Mike pulled off the 1989 Limbo championship. The top 4 finishers:

- (1) Mike Cherry
- (2) Jerry Cordero
- tie (3) John Webster
- tie (3) Lino Gomes

In all, there were 9 people who qualified as winners, since they tried. RR

Beaches Demise

Just as the movie "Beaches" began to gain notoriety for it's longevity at the Meadowbrook, it's voyage came to an end last week after a 16 week run. Salute! "Beaches!" RR

306?

The latest count I've heard is 306, by Bert.

Have You Ever Wondered?

Do you know when Frank has Magenta turn Janet, Brad, Dr. Scott, Rocky, and Columbia into solid stone? Then later they are turned back to regular flesh. Well, have you ever wondered what would have happened if, by accident of course, part of one of the stone sculptures was chipped off, or missing? Then they were turned back to flesh? Would they bleed? Would there just be skin over it? What would happened? The possibilities of different broken pieces is endless. Could you even take a part off one and paste it on another? Wow!

Rocky Horror Food

Hey! Did I ever tell you that the candy & popcorn & soda sold at the concession stand is really Rocky Horror food? Well, it is! All of it. And the Meadowbrook is the only place you can get it. There's Rocky Coke, Rocky Popcorn, and Rocky Milk Duds. So, the next time you walk up to the stand, remember, it's ROCKY stuff you are buying. And ... have a BLAST eating it too!
