## Rocky Hardy Picture Show

Already we are experiencing bad weather conditions as we head into the Winter season of Rocky Horror. Forecasts call for a tough winter. I know it. You know it. Question is, Are YOU gonna stand UP to this wheather and come to the show anyway, or are you gonna stay home. And be bored. And be weak. Only the tuff guys are gonna be here on those nights. And the girls that are here are gonna see just WHO the tuff guys are. And it MIGHT, just MIGHT, make a differ- to them as to who they, how shall I put it, as to just WHO they want to BE with.

Too illistrate, it was just last week, while preparing to do my part and in between songs being played, I overheard 2 women, dressed very sexy and with a HOT look of passion in their eyes, talking on this VERY subject. The first sexy one said to the second sexy one, "So, what guys will we chase here at the RHPS?" The 2nd one said "Well, let's let the cold weather separate the men from the boys. Let's make sure we are here when it snows REALLY bad. THEN we'll see who shows up and we'll move in on them for the kill!" "YEAH," said the second sexy lady, "Who's ever here, I'll use that old line about being cold and needing someone to be close to me. That always works on guys. Then I'll say that I'm affraid to drive home in the snow, get a ride from one of them, and throw ALL I've got at him once the car warms up! Guys are such suckers for that line." "Yesssss," concluded the first sexy lady, "Most of those tuff guys who make it thru the snow to Rocky can be fooled into having sex with us!"

So, TUFF GUYS, unless you are affraid of a little snow and some HOT SEXY AGRESSIVE WOMEN CHASING after YOU, maybe you should, you know, put the boots on and make the hike no matter what.

## XMAS, CTC Busting, Santa Stories

HoHoHo! There's ALWAYS something coming UP @ the show. Christmas is coming, and any of you who have a mild interest in RIR just KNOW there will be a Santa Story or 2 on XMAS weekend. An XMAS show Dec. 23? Well, there's an idea. The CTC record? I was informed it was 123 weeks, not 126 as I had been blasting. Getting close.
